Behold - Behold - Behold the horned king  
He who came to join the maiden the young king  
The land - The land - Hail our precious land!  
He - the young king who comes to bring prosperity to  
the land

The land have been sleeping for too much time while  
the cold winter reigns  
So Hu Gaddarn will awake and with his powers he shall  
reign  
That's the time - Let us unite - The circle cannot be  
broken  
Their souls will shine - Shine to the sky - Behold the  
king again

The land have been sleeping for too much time while  
the cold winter reigns

So Hu Gaddarn will awake and with his powers he will  
reign  
That's the time - Let us unite - The winter king is gone  
Their souls will shine - Shine to the sky - Behold the  
king behold!
