He said it's better I don't go  
Passive/aggressive tendencies  
But that gave him time to think  
Too much is no good thing  
And now he'll just do as he pleases

They never felt like this not once  
I know they do it all for kicks  
Because of what he does  
You pay no mind to us  
Cause we're just sharpening our sticks

She knew she heard this tale before  
But it had changed a million times  
She had enough of it  
So much it made her sick  
Embellishment is still a lie

They never felt like this not once  
I know they do it all for kicks  
Because of what he does  
You pay no mind to us  
Cause we're just sharpening our sticks

It's time to prepare yourself

They never felt like this not once  
I know they do it all for kicks  
Because of what he does  
You pay no mind to us  
Cause we're just sharpening our sticks

It's time to prepare yourself
