"All The Things She Said"

All the things she said
All the things she said
Running through my head
Running through my head
Running through my head

All the things she said
All the things she said
Running through my head
Running through my head
All the things she said

This is not enough

I'm in serious shit, I feel totally lost
If I'm asking for help it's only because
Being with you has opened my eyes
Could I ever believe such a perfect surprise?
I keep asking myself, wondering how
I keep closing my eyes but I can't block you out
Wanna fly to a place where it's just you and me
Nobody else so we can be free
Nobody else so we can be free

All the things she said
All the things she said
Running through my head
Running through my head
Running through my head

All the things she said
All the things she said
Running through my head
Running through my head
All the things she said

This is not enough
This is not enough!

"Jenny From The Block"

Don't be fooled by the rocks that I got
I'm still - I'm still Jenny from the block
Used to have a little now I have a lot
No matter where I go I know I came from (from the
Bronx!)

Don't be fooled by the rocks that I got
I'm still - I'm still Jenny from the block
Used to have a little now I have a lot
No matter where I go I know I came from (from the
Bronx!)

"Get The Party Started"

I'm comin' up so you better you better get this party
started
I'm comin' up so you better you better get this party
started

Get this party started on a Saturday night
Everybody's waitin for me to arrive
Sendin' out the message to all of my friends
We'll be lookin flashy in my Mercedes Benz
I got lotsa style, got my gold diamond rings
I can go for miles if you know what I mean

I'm comin' up so you better you better get this party
started
I'm comin' up so you better you better get this party
started

"Like I Love You"

You know, ever since I was a little N'Sync guy I used to
dream about this. I never thought it'd end up this way.
Drums.

Last night
I awoke with all the answers and quickly
I grabbed hold of pen and paper to right down
So in the morning I wouldn't forget

Next day
I looked over what was written and oddly
It was only ones and zeros but perfect
In the fact that it completed my set

Product of life I've been told
Theories are stagnant and old
Time to demystify something new
