Imagine A Place Where I Wasn't So Impressionable  
And Everything You Do And Say Is Not A Blueprint For  
Me To Choose

I Didn't See And I Never Killed Anything  
I Never Cussed And I Never Heard Anything  
I Saw The Choice And I Carried Out Everything

Think Of The Children, What Of The Children  
Think Of The Children, What Becomes Of Anything  
Think Of The Children, I Protect The Children  
Think Of The Children, What Becomes Of Anything  
So To Survive, To Stay Alive I Must End The Pleasures  
I Afford Myself Everyday

Fate Understands And He Holds It In His Hands  
In His Hands, In His Hands  
But It Wasn't What I Planned  
All That You See Is A Reflection Back To Me  
Back To Me, Back To Me  
So I'm Never Truly Free To Live

Imagine A Time When The Programs Weren't Miserable  
And What You View You Would Digest And Escape From  
Your Memory  
Imagine A Day With Our Actions Unaffordable  
And We Can Stop The Turning Of The Earth With A  
Single Word

I Didn't See And I Never Killed Anything  
I Never Cussed And I Never Heard Anything  
I Saw The Choice And I Carried Out Everything

Think Of The Children, What Of The Children  
Think Of The Children, What Becomes Of Anything  
Think Of The Children, I Protect The Children  
Think Of The Children, What Becomes Of Anything  
So To Survive, To Stay Alive I Must End The Pleasures  
I Afford Myself Everyday

Fate Understands And He Holds It In His Hands  
In His Hands, In His Hands  
But It Wasn't What I Planned  
All That You See Is A Reflection Back To Me  
Back To Me, Back To Me  
So I'm Never Truly Free

Fate Understands And He Holds It In His Hands  
And I Think I Understand, But It Wasn't What I Planned  
All That You See Is A Reflection Back To Me  
I Must Hinder What They See, So I'm Never Truly Free  
To Live

I Must Pass My Genes Into The Next Generation  
That Generation Must Pass Them On Again  
I Must Pass My Genes Into The Next Generation  
Those Genes Must Carry On Until The End  
I Must Pass My Genes Into The Next Generation  
That Generation Must Pass Them On Again  
I Must Pass My Genes Into The Next Generation  
Those Genes Must Carry On Until The End

And All Is Well, That Ends Well  
And All Is Well, That Ends Well
