"Happy This Christmas"

Visit "[Happy This Christmas](#)" on MotoLyrics.com

Year after year
Life wasn't by his December
Now Christmas is here
Tell me the things you remember
Singing our favorite songs
Let's forgive and forget
All the things that we hoped
Won't go wrong

People come together
From all over the world
We're all coming together
Tell me can you feel it
I hope you're happy this Christmas
Are you cheering for Christmas
All over the world

Looking at the world
Wondering where this is going
The people you love
The life you have seen
Are we growing
Singing our favorite songs
Let's forgive and forget
And fill the world with happiness tonight

People come together
From all over the world
We're all coming together
Tell me can you feel it
I hope you're happy this Christmas
Are you cheering for Christmas
I hope you're happy this Christmas
Are you cheering for Christmas
All over the world
All over, all over, all over,
All over the world
All over, all over, all over,
All over the world
