There's blood being spilled like cheap liquor, it's a life
of crime
He's an assassin vigilante and he's raising up the ante,
Killing time

The butcher of san antone,
His stiletto separates meat from the bone
The butcher of san antone,
Criminals beware and say good night
When you walk the streets alone

There ain't no where to hide, he's the king of homicide,
It's a righteous kill
Bootleg liquor distribution, whorehouse execution,
Gives him a thrill

The butcher of san antone,
His stiletto separates meat from the bone
The butcher of san antone,
Criminals beware and say good night
When you walk the streets alone

This is retribution, a killing binge, this is an execution,
This is revenge
Enigmatic butcher, a face with no name, unholy terror,
Purified in the flame

The butcher of san antone,
His stiletto separates meat from the bone
The butcher of san antone,
Criminals beware and say good night
When you walk the streets alone

Criminals beware and say good night
When you walk the streets alone
