### "Lonesome"

Visit "[Lonesome](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I met you on a bright and sunny day  
But that went away and so did you  
I remember that I didn't have much to say  
But that went away and so did you

I'm lonesome with you leaving  
Lonesome with you gone  
I'm lonesome here without you near  
I don't know if I'm right  
I don't know if I'm wrong  
But I know that it's lonesome with you gone

You said our love would stand the test of time  
But that went away and so did you  
You said we'd be together down the line  
But that went away and so did you

I'm lonesome with you leaving  
Lonesome with you gone  
I'm lonesome here without you near  
I don't know if I'm right  
I don't know if I'm wrong  
But I know that it's lonesome with you gone  
But I know that it's lonesome with you gone  
All I know is it's lonesome with you gone
