

Tumbledown "Lonesome"

Visit "[Lonesome](#)" on MotoLyrics.com

I met you on a bright and sunny day
But that went away and so did you
I remember that I didn't have much to say
But that went away and so did you

I'm lonesome with you leaving
Lonesome with you gone
I'm lonesome here without you near
I don't know if I'm right
I don't know if I'm wrong
But I know that it's lonesome with you gone

You said our love would stand the test of time
But that went away and so did you
You said we'd be together down the line
But that went away and so did you

I'm lonesome with you leaving
Lonesome with you gone
I'm lonesome here without you near
I don't know if I'm right
I don't know if I'm wrong
But I know that it's lonesome with you gone
But I know that it's lonesome with you gone
All I know is it's lonesome with you gone
