Hear me now
Hear me plea
I've led a pretty good life

No time
To dwell
On why it's gotta end this way

My head throbs
My bowels burn
Bedsore sweat
I can't move

IV spikes
Plastic tubes
Cancer in the terminal ward

Kept alive
By sick machines
Doctors know
I ain't got a chance

Wanna see our home
One last time
But, it's too late
And our savings are gone

I love you all
I'm so sorry
But someone's gotta pull the plug

Turn off the respirator
Turn it off. It's time to go
Turn off the respirator
Turn it off
And let me die in peace

I love you
I love you
I love each and every one of you

Goodbye my love

Don't forget I'll love you always
Help me
Help me
Lock the door
Make sure the doctor's away

Pull the plug
Pull it now
Pull the plug
And we all hold hands

I love you
I love you
We had a good life together

Pull the plug
Pull it fast
I can't take this pain anymore

Turn off the respirator
Turn it off
Let me die in peace
Turn off the respirator
If the nurse comes running
Barricade the door

Time to go
Time to die
One last kiss
And then goodbye

One last hug
Last embrace
Clasp our hands
For good times' sake

All the things we did together
All the ups and downs we had
Could be better
Could be worse
Now they're all snapshots
In my mind

I love you
I love you
I love you
I love you

Take care of yourself
Take care of the kids
Take care of the cats

And all those things

Have a good life
I wish I was there
It's important to me
You keep yourself well

Pull through
Go on
Pull through
Don't give up

Keep trying
Keep going
Take care
I'm counting on you
I love you
I love you
I love all of you

Please believe it
Don't ever forget it

I love you
I love you
I love you

Goodbye
