Respect is a word that i live by whether chillin or illin i
give it up and you ask why? cuz i'm a product of
The old school shootin my gift with the mic so what is
up fool? with the drive-bys, lettin caps fly no measure
Of mercy on a crowd so a child dies... and shit is got
scandalous blood stains the streets and the halls of los
Angeles shooting people at the age of 10 another life
to be lived in the pen mono y mono, one on one you get
Yours fists up, those days are goine cuz here come the
gunshots will it ever cease? 6 feet deep
So i stride with pride as i glide with an open eye always
watchin my back because the streets lie as i try to
Find answers to all of my questions gunshots are
keeping us gessin... will it ever cease? 6 feet deep will
it
Ever cease? or just repeat...
(run a power move on em!)
So you want respect but won't give it better earn it,
learn it, live it. these are the rules that i go by
Can't pretend a life didn't end so i... preach and teach
the weak that sleep a new technique, so they won't end
Up...6 feet deep
