I've packed my bags -
And I'm ready to run -
From what I've said -
And what I've done -
I look in the mirror -
Look at my face -
Oh god I've got to puke -
In disgrace -
All right I felt really tall -
Like no one could stop me at all -
I felt big, bigger than a wiz -
But magic tricks can't undo this -

Sirhan Sirhan -
I wish it wasn't done -
I just wanted to have some fun -
But now it's too late -

I'm ready to leave -
I know it's coming tonight -
Don't want to decieve you -
It won't be all right -
Did it once -
It's gonna happen twice -
Even though I know it isn't nice -
Now it's closing me in -
It's closing uptight -
There's nowhere to run -
There's no reason to fight -
There's nothing left for me to tell -
The future's set -
I'm going straight to hell -

Sirhan Sirhan -
I wish it wasn't done -
I just wanted to have some fun -
But now it's too late -

Destination: HELL! -
