When somebody  
Reaches for your heart  
Open up and let them through

'Cause everybody  
Needs someone around  
Things could tumble down on you

You'll discover  
When you look around  
You don't have to be alone

Just one lover  
Is all you need to know  
When you're feeling all alone

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too

If there's fire  
Stirring in your heart  
And you're sure it's strong and bright

Keep it burning  
Through the cold and dark  
'Cause it can wander along the night

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too

You might need somebody  
You might need somebody too
