"Arise"

Shredded half-naked, bruised and used
Death can't touch me, I'm immortal
Disarmed, lost, disgraced and abused
Set me on fire
Arise, let the entropy reign supreme!
Burn! burn!
Speed of light, faster, in extreme
Open fire!
Burn! burn!
Arise!
No turning left
No turning right
By higher command marching tonight
You sold your soul long time ago
Only though you have is to go - go
Hell on wheels - boiling under my skin
My prey with hi-heels - give me what I need, my deadly
sin
Arise, let the entropy reign supreme!
Burn! burn!
Speed of light, faster, in extreme
Open fire!
Burn! burn!
Hairless trophy - innocence dies
Cash paid - Mankind depraved
Dusty eyes
Staring to the ones of her "redeemer"
Let the entropy reign supreme
Arise, let the entropy reign supreme!
Burn! burn!
Speed of light, faster, in extreme
Open fire!
Burn! Burn!
Arise!
Let the entropy reign supreme
Burn! Burn!
Arise!
