Written by: Joseph Deeb

Cmon tell me little baby
Tell me what I need to know
And let the words spill baby
Load em up before I go

Cause I could see you little darlin
Got a thing or two too say
And I could feel you little darlin
Stingin words from yesterday
You think you got it all wrote there
Neatly stashed and figured out
But I see you little baby
Slightly scattered all about

Baby its ok to wonder
We all do it time to time
Just be careful where it takes you baby
Theres innocent roads behind those eyes

Cause I could see you little darlin
Got a thing or two too say
And I could feel you little darlin
Stingin words from yesterday
I used to have it all wrote out
Neatly stashed and figured out
Until you loved me little baby
Slightly scattered all about

No one to tuck away the darkness
Or hide your memory till light
I can see you little baby
Say a prayer for me tonight
