Written by Micky Braun

I said I would never fall for you again

We were always going to be friends

Knew it would be different than before

That all changed when I walked out your door
Can't stop thinking about the old times

Thought I was tough as leather

You were young and sweet and innocent

But I thought that we would always

End up together

Chorus:

And not on this long and lonely highway

That I travel every night

From Jackpot down to Ely

Like being in my hardest fight
And I guess I never really lost you

You were never mine

I was only chasing sweet dreams

Maybe they'll come true another time
Chorus
