She loved a party she loved a crowd
Now she wants nobody around
Started out small time with a couple of friends
We know how it starts here's how it ends

PRE-CHORUS

She's skippin classes nowadays she steals
Giving it all for all she can feel

CHORUS

She's going down to the other side of town
I wonder how she ever got that far

She spent seven days in the dark all alone
Drawing the shades ignoring the phone
Yeah she used to get out now she just hides
She's jumped the train now she's locked inside

RPT. PRE-CHORUS

RPT. CHORUS

Her family has questions the answers they'll find
It's easy to trace from the tracks she's left behind
Yeah, I wonder how the girl ever fell so hard
