Well I wake up
Go to work
and I come home
and I put on a clean shirt

I go to the phone booth
and I call up the boys
See if they're ready to go downtown and make some
noise

Grab a guitar
I try and get in the mood
To go to play for three hours for free beer and food

Chorus:

Yeah we're doing all right
Y'know we're feelin' fine
Yeah we all know that it's gonna take time

I stay out all night
I watch the sun come up
It's time to swing by the coffee hut for a hot cup

It's back to the apartment now baby
We're laughin' about where we've been
It's time to get cleaned up cause it's Saturday night
and we get go out
and do it all over again

Chorus x2:
