Written by: Micky Braun

We spent more days fighting than we ever did loving  
We could never see eye to eye  
I worked and I slaved but I didn't save  
You spent every dime  
Hell we could go out all day do whatever you want  
You couldn't be satisfied

CHORUS

Man I wish I could buy some time  
Cause that girl wasted all of mine  
Hell I thought I was king and she was my queen  
She hated my friends hell, we never did anything

Her friends are phony they talk a lot  
I come from home from work with nothing to do  
But sit around here fighting with you  
Where you chew my ass, I kept it all inside

CHORUS

I got so far in debt it took all my checks  
Till I could realize  
She wanted everything like that big diamond ring  
And a couple of men on the side

CHORUS

She took all of my bad habits threw them out the door  
Luckily I told my friend next door  
Now we sit around until our brains are fried
