Millions of people from all over the world worship for
different gods

But What is the God? What holy fathers teach them?

They teach to be resigned to fate...But What is Fate?

They teach to be humble, submissive...

They grow the weak willed herd of sheep...

Hey! Proud nation!

Think what happens with your mind!

Who controls your own souls?

What operates your lives?

Hey! Proud people!

Where's your lost freedom?

Your thoughts and your words

Don't belong to you any more...

Born to be Free...

Like wind in the skies...

Born to be Strong...

Now close Your eyes...

Proud name 'The Man'

Should not be lost

Remember...

Hold it in the memory

Of your hearts

Thousands years they inspired you the fear of God's
punishment

Rebels were burned in the fires

Thousand years they killed in you the sprouts of
wisdom

No more! Brothers! Now is your time to rise!

Your God in Your Mind

You're owner of your soul, the master of heart filled by
freedom.

Stop the Madness of lie, and use your best right

To use your best right

To be yourself!!!!
