Because nobody messes with my mind like any other
And your lines sound so sweet when you say them to
me
Followed by my persistence and your lack of
willingness
To hang out together but it's all I want to do
I'll keep this a secret if you really want me to
Because you're all that I wanted and all that I needed
I don't know what you want but you know what I need
So take me by the hand girl and I'll follow your lead

(Chorus)

She said darling you know you have my heart
And there's a place in mine just for you
So I said baby let me light a match
And watch this city light up, so you know it's all for you

Get up and let's go we never have plans but
I can spend my whole life just sitting with you
Enjoying every moment that we have together
What I would do just to get a point across to you
I would write down all my feelings
And put them in a song that's all about you
So you know how much you mean to someone like me
Even though you probably know me 'cause I keep on
telling you

(Repeat Chorus)

(Bridge)

Everyone says the same thing to me
Just give her her space and stay far away
It's not that easy giving up on someone who meant
everything

(Repeat Chorus x2)
