(Andy Sears)

pray--
dream breaker
faith healer--

shame--who can excuse you
shame--we don't include you
shame--and if we choose to
shame--we will accuse you

shame--who'll understand you
when it comes to the day--
who'll rise to save you
shame--when you try to explain
who'll entertain you
when it comes to the day--
shame will reject you

doctor reports of a social disease--
"it can't afford all the caring it needs",--
cover yourself with emotional sham
shame made your bed
now you live and lie--
live a lie

when you fall in shame
who'll understand you
when it comes to the day--
who will respect you--
I'll be there
when you fall
when you fall in shame!
--shame
when you fall in shame!
I'll be there
--shame
when you fall
when you fall in shame!
I'll be there
--shame
when you fall
when you fall in shame!
--shame
--shame
