

## **Twenty Twenty "Forever"**

Visit "[Forever](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We serve and fight  
For what we think is right  
Until we tell a lie  
Patient, so blind  
Whilst we stand beside  
Our mistakes tonight

Could this be the one song to make things right?  
Could we stand aside for just one night?  
And we'll say

Things will never be the same  
This time the sky will fall down (on all of us)  
Lets make a promise to be  
Lets make a promise to stay this way forever

Wont change your mind  
This life will lead a lie  
You'll see soon enough to find  
When you say goodbye  
Don't look behind  
To see us there this time

Could this be the one song to make things right?  
Could we stand aside for just one night?  
And we'll say

Things will never be the same  
This time the sky will fall down (on all of us)  
Lets make a promise to be  
Lets make a promise to stay this way forever

If you're the last one left with a smile  
If you're the last one left with a smile

Things will never be the same  
This time the sky will fall down (on all of us)  
Lets make a promise to be  
Lets make a promise to stay this way forever
