It's something that scares me
It's something I can't stand
It's like electricity when I touch your hand
And if you don't believe me
Just take a look
At the story of you and me both

Passing you every day
Not knowing what to say
Laughing at your jokes of you and me both
My heart beat rises when you turn to me
I stare right at you, you smile so innocently

Undecided I'll regret it
I never said it I never meant it
Forever hurting always learning
Never needing always wanting
One day she'll say one day she'll mean it
One day I'll hear it one day we'll feel this
One day we'll share it and then forget it

It's something that scares me
It's something I can't stand
It's like electricity when I touch your hand
And if you don't believe me
Just take a look
At the story of you and me both

Once to us all
It's over now
I hear your voice
It speaks so loud
Once to us all
It's over now
I hear your voice
It speaks so loud

Once to us all
It's over now
I hear your voice
It speaks so loud
Once to us all

It's over now
I hear your voice
It speaks so loud
