Too many places  
too many faces  
judging me slightly  
pushing me sideways

Gotta prove them wrong yeah  
different all along yeah  
realising that we're not the same

We've gotta make a stand  
you are all in demand  
we need to stand up tall  
if they all have to fall

We were right all along  
we need to prove them wrong

We need to prove them wrong

Raise your hands this one last time  
it's time for us  
they'll all see why

It's time to fight  
time to make things right  
It's time to tell  
The story of our lives

So many times  
i've walked by  
and never once  
did they smile  
rejecting phone calls  
petty comments  
about my style

We've gotta make a stand  
you are all in demand  
we need to stand up tall  
if they all have to fall

We were right all along  
we need to prove them wrong

We need to prove them wrong

Raise your hands this one last time  
it's time for us  
they'll all see why

Its time to fight  
time to make things right  
it's time to tell

The story of our lives  
the story of our lives  
the story of our lives  
the story of our lives

Raise your hands this one last time  
it's time for us  
they'll all see why

It's time to fight  
time to makes things right  
it's time to tell

The story of our lives  
the story of our lives  
the story of our lives
