Uh oh  
Uh oh woah oh (x4)

This time  
We're taking over headlines  
Make way  
We're gonna have them running for us  
Midnight  
Tearing down the street signs  
Waking  
Another day in paradise

Oh no  
We're dancing on the stereo  
Let go  
Move into the alley-o

Hit the lights down low  
Turn the bass up louder  
(Uh oh  
Uh oh woah oh)

Pour the drinks in the club  
Pull the girls in closer

We'll blow the speakers  
Bring the ceiling  
Down, down, down  
Cos tonight in here  
We're causing trouble

Uh oh  
Uh oh woah oh

One taste  
You gotta play it our way  
No chance  
This motion's got you left in a spin  
Too late  
We've become the enemy  
Our plan

Crawling underneath your skin

Oh no  
We're dancing on the stereo  
Let go  
Move into the alley-o

Hit the lights down low  
Turn the bass up louder  
(Uh oh  
Uh oh woah oh)

Pour the drinks in the club  
Pull the girls in closer

We'll blow the speakers  
Bring the ceiling  
Down, down, down  
Cos tonight in here  
We're causing trouble

Uh oh  
Uh oh woah oh (x4)

Oh no  
We're dancing on the stereo  
Let go  
Move into the alley-o

Hit the lights down low  
Turn the bass up louder

Hit the lights down low
