

Twenty Twenty "We're Ok"

Visit "[We're Ok](#)" on MotoLyrics.com

This song goes out to everyone with their head down
To every girl and boy who's ever been messed around
So take a deep breath take a step back look at your
target
This mothers going down so don't kick the habbit
tonight

We'll shout it out tell 'em what we're all about
We'll scream it out to tell 'em right here and now
We'll never fall, this will be our goodbye song
So let me hear you say we're gonna be ok
Ye we're gonna be ok

Not so long ago you and I were both the same
Growing up in a changing world I guess we're all to
blame
Taking changes making descions story of our lives
I chose to make a path, you chose to follow lies

We'll shout it out tell 'em what we're all about
We'll scream it out to tell 'em right here and now
We'll never fall, this will be our goodbye song
So let me hear you say we're gonna be ok

It's not the things that we've done or the things that
we'll do it's the things that we say that hit the heart to
And we speak we mean every word of what we say so
lets make a new start
So let me hear you say wo-oh
Get up stand up and say

We'll shout it out tell 'em what we're all about
We'll scream it out to tell 'em right here and now
We'll never fall, this will be our goodbye song
So let me hear you say we're gonna be ok
Get up stand up and say we're gonna be ok
Ye we're gonna be ok
