I'm Driving in the front seat of my car  
Listening to the stereo  
I'm not sure where I'm going,, now  
But where ever it is  
It's better than where I am now

It'll be a  
Place of happiness  
Peace and security  
Love and prosperity  
Were ever I go that's where I'll Be

I'm tired of this world draggin' me (brinin' me) down  
I'm in need of a refuge that is  
Sent from above

It'll be a  
Place of happiness  
Peace and security  
Love and prosperity  
Were ever I go that's where I'll Be

Oh-----

Come with me  
To a place of love and happiness

Hey-----

It'll be a  
Place of happiness  
Peace and security  
Love and prosperity  
Were ever I go that's where I'll Be

La da da-----
