Dust setting down, all happened so fast
It's hard to bare but we won't be the last
This weightless crown, all it's demands
Won't be fair; all seen in the past

Revolution in silence
Steal what you can
The bloodless violence
Out of our hands

It makes no sound like a beast upon lamb
Like snow blind worms, we can't make a stand
The mindless clowns won't see what they have
You might be king but you're never a man

Revolution in silence
Steal what you can
The bloodless violence
Out of our hands

Time to stand your ground
Time to make a sound
Set out the wolves
Tear down the king
