There ain't no free ride  
Triumph comes from the sweat  
Forget about it  
We're here to break you  
Don't hold your breath  
You might like it too

Buddy stop kicking the can  
Mad dog is found in me  
Poor man take a stand  
Start raisin' hell here with me  
No guts, no glory  
No power before me  
Ride the wild bite  
And set me free

Liquid lizard  
Thick oil in my veins  
There ain't no game without the pain

Buddy stop kicking the can  
Mad dog is found in me  
Poor man take a stand  
Start raisin' hell here with me  
No guts, no glory  
No power before me  
Ride the wild bite  
And set me free

Buddy stop kicking the can  
Mad dog is found in me  
Poor man take a stand  
Start raisin' hell here with me  
No guts, no glory  
No power before me  
Ride the wild bite  
And set me free
