Flashing light-display revolves with easy pace
To illustrate the miner's way
Digging deep within an unbounded maze
To find the reason for their daze
As the effect kicks in
The view around you starts to spin...
Revolution never seen before
Stood up against the world
They had had enough and took no more
A new way in their mind
This insane authority must fall
Resign the system's force
They were the people that I'd call
The diamonds of mankind
I would preach in the name of free love
If there was someone listening to me
Why all those nice things had to flee?
Cherish life with no restrictions
Inhale the spirit of freedom
And all the worries will be gone
It's the...
Revolution never seen before
Stood up against the world
They had had enough and took no more
A new way in their mind
This insane authority must fall
Resign the system's force
They were the people that I'd call
The diamonds of mankind
Revolution never seen before
Stood up against the world
They had had enough and took no more
A new way in their mind
This insane authority must fall
Resign the system's force
They were the people that I'd call
The diamonds of mankind
