We stand here together on edge of eternity
In night everlasting; we two, unparted
The night is so cold, but it's calling me, so desirous
The Full moon Watches over me from above

Emerald eyes stare out from an ivory face
How could it be, that death has such beauty?
Hair as black as the night always is
Night falls always as she awakes
"The moon is you lover, Queen of the Night"
Lips as red as the blood in my veins
At dawn I pray, Come night:
Bring her, Queen of the Night

Your kiss cuts me like a razor
Hold me down and take my heart
Watch as I become just like you
Touch me and I'll burn like Fire
