Random shots, you talk in hate
Apathy in your brain
Aggression all so vain
Lose your cool and innovate
Blind man's heroin they sell
Testosterone, I think
Your insular gate
Of insubstantial faith
Inordinate grate in your...
...brain
Fermentation insane
Knelt before your lord, he makes you feign
So lose you cool
You're just another fool of your fever pitch
Boasting the scores you made last night
Just couldn't get it up
All alone in the tub
And she was no Jenna J.
I think you were with your friends
Sharing DNA
Your insular gate
Of insubstantial faith
Inordinate grate in your...
...brain
Fermentation insane
Knelt before your lord, he makes you feign
So lose you cool
You're just another fool of your fever pitch
...brain
Fermentation insane
Knelt before your lord, he makes you feign
So lose you cool
You're just another fool of your fever pitch
So go insane!
I just couldn't careless what you gain
So lose your cool
You're just another fool of your fever pitch
