Delusions from the past
They are meant to last forever
To haunt the generations
Watch out and be aware
There's danger everywhere, don't take a glance
Even if it's the only chance

To look around where flowers bloom
Ignore the mountebank's assume

Take all that brings fun
Growing underneath the sun
Fake all facts about the trace to our resort
Take all that you will
If you need to feel the thrill
Fake all facts about the bringer of our comfort

Show me where's the gate
And tell me it's too late for turning back
But I have seen it all before
I've been there many times
I tell you there're no signs keeping you there
Just take your time and you will dare

To look around where flowers bloom
Ignore the mountebank's assume

Take all that brings fun
Growing underneath the sun
Fake all facts about the trace to our resort
Take all that you will
If you need to feel the thrill
Fake all facts about the bringer of our comfort

Tim & Hugh & Calvin
I like to hang around with them
When the sun is shining
We are having lot's of fun again

Now their mom is calling
The dinner's served at 4.20

And that goes fine with us cause we are getting hungry
already
And she's smiling so pretty...

Take all that brings fun
Growing underneath the sun
Fake all facts about the trace to our resort
Take all that you will
If you need to feel the thrill
Fake all facts about the bringer of our comfort

She is the goddess of fortune
(The bringer of our comfort)
She spawns the egg which is to take us to our resort
She is the goddess of fortune
(Galaxies spin above her)
Higher than you've ever been...

She is the goddess of fortune
She spawns the egg which is to take us to our resort
She is the goddess of fortune
She spawns the egg which is to take us to our resort

She is the goddess of fortune
She spawns the egg which is to take us to our resort...
