Mistakes that we share  
I'd crawl through broken glass  
Just to feel the same or to understand  
And I see it in your eyes  
Your slipping into that net, that net  
I see it in your eyes your slipping through that net,  
Listen, listen to me  
Listen, listen to me  
You fold, you fold in two  
In common places together with common friends...  
They say you must fight back  
Yeah stand up for yourself  
I see it in your eyes your slipping  
Through that net... that net  
Well time is the enemy she's biting  
At your heels thank reason for remedies  
Yeah!
