

Twinball "Inner Light"

Visit "[Inner Light](#)" on MotoLyrics.com

At ease my life is falling down
I know it will come around
The tension in the air will fill my soul
I see it coming

I can't help myself my feelings are immune
Make me see make me bleed
I know what's coming

Reach for the inner light (my strength will make it
happen)
I think we're out of sight (don't want to see you cry now)

My tears of innocence
I know this is my turning point
The tension in the air will fill my soul
I see it coming

I can't help myself my hand are soaked in blood
Do me wrong do me right
I know what's coming

Make it come around and crush me with your hands
Make it come around to me
