Hush now baby I don't know what I'm doing here
Don't say maybe my head spins my vision is clear
Don't speak don't move just do nothing
The evil takes it's toll hey hey hey
Mark your way don't count on freedom
It's time to stand up for what you believe in

I feel it's coming near
Echoes in the night
So don't play teaser now
Feed upon your lies

My bleeding evil
Don't you rush from everything that is you
Hear no see no
The time is blind don't know just what to do

Take it easy you have many ways I know
Make me see it don't rush it take it slow
Don't speak don't move just say nothing
The evil takes it's toll hey hey hey
Mark your way don't count on freedom
It's time to stand up and don't look back
