"Tears Of Guilt"

You're my freezing star
You're a superstar
You're everything that I need
Do not walk away
Do not hesitate
Just follow everyday signs

Follow me when time collides

Is this really true?
I believe in you
You're everything that I want
Could I really know?
Could I really do?
Just follow everyday signs

Follow me when time collides

See me for who I am don't walk away
Eyes filled with tears of guilt hands sworn to pray

I don't wanna go
Gotta take it slow
You're everything that I want
I don't wanna see
I don't wanna flee
Just follow everyday signs

Follow me when time collides

Wanna go gotta take it slow you're everything that I
want
I don't wanna see I don't wanna flee just follow
everyday signs
