Don't wait until it gets around (I'm lost and out of words)
Watch me as I'm falling down (out of control)
Don't stop moving don't stop dreaming don't stop thinking of me
Slow down honey better days are coming hold me tight tonight

Call me Mr. Beautiful
I'm on fire doing it the right way
Why me Mr. Pitiful
Slow down and see the line of the sky

Lets call for your crying help (One step closer now)
It's only me there's no one left (move over here)

I can't stop feeling all the wrong feelings deep inside of me
One way baby and it's driving me crazy hold me tight tonight

Can't stop feeling all the wrong feelings deep inside of me
