(Chorus) x2

She's on her way, about to get paid  
But never turning Hollywood  
He's on his way, about to get paid  
But never turning Hollywood

Neb Love-

I used to be that way, but now I'm like this  
You betta miss me with that shit or catch a mighty blow  
to lip  
Cheeks  
Beware I'm here, hooray for N-E-B, no that's not me,  
Oh, cuz I'm in the Cherokee, cruisin with Warren G  
Goin to pick up Jah Skill and the Twinz  
Five footin till the end of my life, for real  
Ya didn't know the sista but she had a record deal  
They wanna see you at the top, then they wanna see  
you drop  
Then they wanna call the cops, ring hello?  
Wake up, once yo ass go Hollywood ya ass is like fuck  
(ya ass is like fuck)  
A young buck Knee-Hi told me that Neb changed  
But if I'm on the wrong track put me in the right place

Wayniac-

I'm just the same muthafucka, who kicked them nuts  
back in the day  
This is how it is when the niggaz gettin paid  
You used to treat me different now that you know  
where I stand  
But back up in the days you didn't really give a damn  
I had my own thing, me and the homeys from the PAC  
We watch each other's back tryin to get our pockets fat  
But now it's new niggaz poppin all up in our face  
From 88 to 93 I couldn't find a trace  
I kepted on shit on data just reviewin all the facts  
In my mind I designed how to switch and counteract  
Cuz ain't no Holly and me if it is it's gettin stuck  
I'm strictly for my paper as these groupies ride my nuts

(Chorus) x2

Jah Skills-

What, you can't speak, because I reached my peak,  
Why don't you, go bout your business let your mind  
tweak,  
But see ain't nuthin changed on my behalf still got my  
mics and  
Stashed  
Niggaz is siamese two faced and they switch it fast  
Cuz Hollywood can't do nuthin for me but hang me like  
drapes  
Distribute my phat tapes and in my pocket put some  
papes

Trip Locc-

And ain't nuthin in Hollywood that could make me  
wanna switch  
Could he please, you know what's up with me so Holly  
these  
I'm from the G side, flip flop if you want to  
Banned by yo hood and yo city shoulda stayed true  
But ya didn't fell victim to the limelight  
Never gettin faded cuz the Locc was just to trump tight

Jah Skills-

You must be dazed  
Ya goin through some type of phase  
Behind my back you jaw jack but in my house you  
wanna blaze

Wayniac & Jah Skills-

So thanks for smokin the click out an shit  
All upon her clit  
(and all upon his dick)  
It makes me sick, but we don't even trip cuz it's the G-  
Funk  
(rail two rules like tree trunks)  
Now feel the brew that we funk  
(steady on a mission underground that is the sound)  
Don't ever get it twisted when the real ones put it down  
(Chorus) x5
