[VERSE 1]

Droppin a flow like this be breakin the suckers
And rippin the rhythm and showin I'm bringin the feel
of my tongue
And be makin em manifest that I be rockin the young
Flowin this style I be singin and bringin
It's breakin the people and go in the mind of a teen
Be makin em hear it and manifest up in him that I'm a
star to become
Quick the lyrical style I'ma kick
You better catch the rhythm of it
Cause hip-hop is becomin complicated, never be left
hung
Bringin a style like this kinda quick and crisp
A lyrical twist be comin from Chi-Town
I know that hip-hoppers all over will be stung

[CHORUS]

(How was the rhyme brung?)
Frum the tip of my tung [7X]
(How was the rhyme brung?)
Frum among the tip of my tung

[VERSE 2]

Rock the style of my second verse like that of my first
Be showin the hip-hop hypes my types of flowin, but not
the best of T
From an imagination this was took, a mental crook
Stirring this up like a chef or cook
I hear them say give me the recipe
Breakin this off in the fashion of an erection of an
adventurous style
That I'ma use to just confuse and smart people then go
dumb
You say me style be wack cause y'all can't manifest
what I be sayin
Think I'm a lyrical midget, watch me then say fee-fi-fo-
fum

Flowin this like a veteran that I'm incredible is what they
be stung by
When I'ma give in a flow of the funk I erect like a wee-

wee
Then see me gee, we be DJ Jihad and T.T.
Steppin and then I'ma find a lyrical line that'll flow from
me like peepee
Rockin and me stylin, rockin and me stylin, wildin
Them say me tracks be wack, I just sip them like them
coco
Loco, a lyrical thing I sling and cling like Sing-Sing,
merciless like Ming
Watch me come and stiff in em like a photo
Funky, funky, funky stylin, wildin
I'ma drop in a flow that breaks and takes a lyrical wiz to
wax a funky scholar
Flowin a hyper type of song that I sung from the lung
Breakin em up in a snap, I think that I better thank Allah

[CHORUS]

[VERSE 3]

Face the lyrical rhythm of this lick I throw in a blister of
a body
Breakin em up so quick that I can even bruise hair
Rhythm will rock blocks and funky track drops
Don't wanna come in the door but when you're hearin
this
Do I hear a 'knock-knock who's there'?
Twista breakin em off in a magical rhythmous
manifestation of a lyrical racin
Chasin suckers that my funky rhythm elects
Wrote this, quote this, notice how I wreck
My funky hoocus pocus broke his neck

[CHORUS]
