[Intro: x3]

Problems

Problems

Problems

Problems upset you

[Verse 1: Twista]

When I'm on the track you will see accuracy

Actually I know that you will see I come like I got the
fully

Automatic for the sent aggression of the problematic
and negativity or whoever caused the static

Pick up a rose and sniff a scent if if you think it's
magnificent

Stop the stressin or just catch a blessin if it

If it's bills or if it's rent some of us worry some of us
don't that's why everybody so different

The only answer to you problems solve em

Stallin is the only thing that can stop a balla

Though world is full of hatred face it

Get out the matrix and let's get back to the basics

Instead of being individual let's practice a ritual and be
an indivisible when it's critical

So every time that some drama hit yo doorstep

Gotta try to keep your composure and don't let

[Chorus: x2]

Problems (Don't let)

Problems (You can't let)

Problems (You won't let)

Problems upset you

[Verse 2: Tech N9ne]

I'm a problem because I'm different and people don't
get it

When I be the clown like a sucka down when I be kickin'
my music

Tech is dangerous if you think you can hang with us

Sick in your brain with it when I mangle it know that I

break and abuse it

Have you prayin' to God

Cause what I'm sprayin it's odd

And I'm slayin this broad
Tech Nina's layin his ride
I'm insatiable when it comes to be makin this gouda
I'm a sniper killa murderer look out I'm a shoota
A dilemma we takin out you beginners comin to my
psycho cinema
It's a must that I crush them

If you accustomed to lovey dovey movies
Then you unlucky because they call me Tecca Nina the
snuff film
Throwing the fist up
Cause all of my grips up
People was hating but now they zippin their lips up
Neva debated you imitated get ripped up
Stuck off in Necropolis cause Tecca Nina and Twista's a

[Chorus: x2]
Problems (Don't let)
Problems (You can't let)
Problems (You won't let)
Problems upset you

[Verse 3: Twista]
My alien complex can get as lethal as bomb threats
When I put together patterns and concepts
But when it come to dealin with pain and problems and
relationships I ain't gonna lie I ain't the bomb yet
What do we need, what's the resolution
It's the restitution or just retribution let's just start a
revolution
But wait, I'm hesitant because in fact
How can I fight to be equal if the president is black and
a
A Chi Town resident at that
Hope we focus on this instead of wars in Iraq
The future is bright or will it be weary
Do I need to pay attention to conspiracy theories
Is the government systematically destroyin the
population for the progress of world domination
Smile, even if the landlord callin
[?] but that the least of your problems

[Chorus: x2]
Problems (Don't let)
Problems (You can't let)
Problems (You won't let)
Problems upset you

[Outro:]
Try not to get worried

Try not turn on to
Problems that upset you
Don't you know
