Yeah, yeah, just how long little momma? I'm coming  
through in a minute  
Done here, put that little pink thang on for me, through,  
twister

I'll have you going, have you by the flowing, every time  
you think of me  
And when they play my song I'll have you in the phone,  
sweating and you waiting for me

You sweating and you waiting, sweating and you  
waiting, sweating and you waiting for me [x2]

I see little momma in the mood, she thinkin about you,  
she really want bad  
Body ready for kissin and huggin and the bear but...  
call you dad  
Listen what you gonna be spendind because the words  
coming out of my mind is pow  
My hat... I get you... even through you got out the  
shower  
He gonna be the a last an hour so you gotta... twisted to  
get freaky  
Body dripping with sweater you listen the cutter I bust  
you go nuts if you see me  
I wanna pick her out of the mouth when she wrecking  
another motherfucker to hit it against the hair tool  
And if they let me gonna be fucking with then let my  
music get prepared for  
Scrip from my shot shot caulder,.. fucking with a  
boulder  
The ice... marvey get with the flow, I can turn a room  
with a bear to a sauna  
And never tells you it's a celebration because you're  
about to be the one girl  
And you gonna... and listen to me, you wait for me to  
come and I'm about to beat it up

I'll have you going, have you by the flowing, every time  
you think of me  
And when they play my song I'll have you in the phone,  
sweating and you waiting for me

That's right, sweating and you waiting, sweating and  
you waiting, sweating and you waiting for me [x2]

Now even through you're not so classy, you see... when  
I talk so nasty

And I love it when you tell your secret to telly cause you  
take it out so sassy  
Look how I touch you when I spike that juice, mmm, do  
you like that boob?  
And I got up in the strawberry's a whip cream, cause I  
be loving the way you wipe that fruit  
I take of piece of them then put it right back, to  
squeeze the... back  
And I go down and lick it at the crime,.. you don't know  
how to act  
So does... and you be waiting, nobody be sweating but  
your heart be racing  
... time's a crime, but you're trying to exercise your  
patience  
Then I pull up the acupuncture looking... while I'm  
acting...  
Then she's telling me the topper, the topper, the  
topper, until I give away  
She sais I never let the white... alone and take me home  
and make me more  
Cause I be coming with the shit that makes you hot  
I think you better turn the AC on

I'll have you going, have you by the flowing, every time  
you think of me  
And when they play my song I'll have you in the phone,  
sweating and you waiting for me  
Oh yeah, sweating and you waiting, sweating and you  
waiting, sweating and you waiting for me [x2]  
I know you're hot

It's another one for ya, some of you can bump in night  
When you're getting ready for whoever to come do that  
You all know how Twista does it  
2010 gmg baby.
