Ya see I could make a mill, and don't have to sell drugs  
I could smoke a roach, and do have to light bugs  
I could pack a bowl, but I'm not Cheech and Chong  
Not Cypress Hill, but I like hittin' bong  
I can be fat, and don't have to gain weight  
I can be a legend, and don't have to be great  
I don't have to take a plane to fly high  
I don't wanna live my life just to die  
I can be a DJ, and don't have to scratch  
I could spark my cigarette with a lighter or match  
I can have a gun, and I don't have to shoot  
I can get a job, and try to earn a little loot  
I could be a bum and live in a box  
I could move to your neighborhood, stayin' on your  
block  
I can like tricks, but I'm not a silly rabbit  
I can't stop smokin' because I can't kick the habit  
What is a jam if you don't come smooth?  
What is a beat if you don't have a groove?  
I could be the President, and legalize weed  
I could grow a field of bud with a hand full of seeds  
Damn
