Psychopathic family baby!  
Its goin down!  
Cryptic Collection!  
Twiztid baby! ??  
In this motha lova

Karate chopping mothafuckas like (Kiyah)  
Lord of the Rings, I'll make the dragon breathe (Fiya)  
It won't stop till my heart beat expires  
And then I keep it going till the underground retires  
We keep it darker then a vampire  
With your body in my trunk, with my bumps and my  
spare tire M o n o x I D E,  
When disaster strikes, it looks just like me,  
I'm abused by most I'm a plague that will wipe out most  
of the east coast  
Come with me, run with me, try to escape  
We love, not hate, now can you relate?  
Burning me inside, with the pain of never knowing  
Can't explain why the rain don't change, it keeps  
glowing I'm a lighting rod  
Rocking the dead, a little bit frightening and odd  
But I never forget

Twiztid in this bitch, double 0 (double 0)  
And we crush any nemesis Jamie Madrox, got shaped  
like a jellyfish  
(Like a succubas)  
Brain of a scientist  
I'm the adbomible beast from the east  
I'm the walker of the dimension X, in search of inner  
peace  
I'm everywhere and nowhere at the same time  
Scales of the book, a savior of mine, remains  
mummified inside  
Inside, where all the negativity goes  
Sprayed down with herbicide so love will never grow in  
this host  
And I'm changing forms, scared to death to come in  
view of great thunderstorms (thunderstorms)  
It hurts far worse, lighting never strikes in the same

place twice  
You got to be precise to exist in the midst of the don't  
say shit  
To the maniacs with eyes in the back of their head
