

## **Two Days Till Midnight**

### **"All You Need Is Love"**

Visit "[All You Need Is Love](#)" on [MotoLyrics.com](#)

Standing in the sunlight, and let your head hang down  
You take off your coat while you put on a frown  
And your simple plan gets complicated  
Seems you bit off more then you can chew

Well life is tough, but you can never get enough  
Cause baby you know all you need is love  
All you ever need is love,

Don't try to fight it, cause the feeling's just to strong  
No you can't hide it, why don't you give it a try and sing  
along...

Oh oh, oh oh oh, all you need is love  
Oh oh, oh oh oh, all you need is love  
Oh oh, oh oh oh, all you need is love  
All you need is love...

Standing in the sunlight, now lift your head up high  
And you take off your coat while you put on a smile  
When your simple plan gets complicated  
When you bit off more then you can chew

Well life is tough, but you can never get enough  
Cause baby you know all you need is love  
All you ever need is love,

Don't try to fight it, cause the feeling's just to strong  
No you can't hide it, why don't you give it a try and sing  
along...

Oh oh, oh oh oh, all you need is love  
Oh oh, oh oh oh, all you need is love  
Oh oh, oh oh oh, all you need is love  
All you need is love...
