I don't know what to do
I get so helpless girl when I am without you

It's driving me insane
Cause since they told me girl that I'm the one to blame
I can't live with all this pain

I don't know where to start
But since you left me there's a shadow round my heart
It's getting darker every day
And I can't seem to find my way
If I can't seem to find my way

Out of here today, when there's nothing left to say
Cause you're awake or it's a dream
And there's nothing in between to make it real
Or something in between that you can feel
There's nothing in between to make it real

I don't know what to say
These times without you changed my life in every way
I know that I'm the one to blame
But I can't seem to find my way
No I can't seem to find my way

Out of here today, when there's nothing left to say
Cause you're awake or it's a dream
And there's nothing in between to make it real
Or something in between that you can feel
There's nothing in between to make it real
There's nothing in between to make it real
There's nothing in between to make it... real
