### "Desolation"

Visit "[Desolation](#)" on MotoLyrics.com

I wonder how it is to be loved  
I wonder how it is to be touched  
See all the others holding their hands  
And I'm still alone with myself

Say that you love me  
Say that you care  
I want you to love me  
To kiss me and hug me  
And I want you to never let go of me  
(I want you to never let go)

Let it go, let it flow, let me feel free  
I never want you to go  
Let it go, let it flow, let me feel free  
I only want to be loved

I wonder what I have done wrong  
I wonder what I could have done  
Eyes are just staring  
Why can't you see  
I am who I am and no one else

Say that you love me  
Say that you care  
I want you to love me  
To kiss me and hug me  
And I want you to never let go of me  
(I want you to never let go)

Let it go, let it flow, let me feel free  
I never want you to go  
Let it go, let it flow, let me feel free  
I only want to be loved

I wonder how it is to be loved  
I wonder how it is to be touched  
See all the others holding their hands  
And I'm still alone with myself
