It's two o'clock now,
I'm tired and I should be off to bed.
Monday flew by, where were you?
In my heart and not my head
Turn on the TV or the radio
But there's nothing for me there
Maybe if I sought you or I thought of you
Then I wouldn't feel this way.
Jesus you made a way for Moses
Can you make a way for me now?
Jesus you made a way for Moses
Don't you remember when I was younger
What you use to say
What you love and cherish deeply
Will turn and kill you someday
Although I'm dying like a martyr
It's to my flesh and not to you
But I've come to seek forgiveness
A thing that only you can do
Jesus you made a way for Moses
Can you make one for me now?
Jesus you made a way for Moses
Can you make one for me now?
Jesus you made a way for Moses....
Made a way
Made a way
Made a way
