

Two Witches "Bites And Bloody Kisses"

Shadows whisper through the mirrors
Moans of passion leave the grave
My inebriety fills the emptiness
Left by the twilight of the day

Deepest enjoyment dragged pleasures
Black velvet on pale skin
Betraying love with a foolish lie
For you I want to live and die
P> With love will I be happy
With passion will I be conscious
Will I hold the fire?
I'm slave of my own desire.

My lips are saying
A silent prayer
For giving me eternal life
A lot of bites and bloody kisses
Taking me from this world

I'm weak without my goddess
This feeling kills me deep inside
My only beg, let me taste
The covering beauty of eternal night.

"En jaksä hymyillä,
Ei ole paljon syytä,
Laulut on laulettu loppuun,
On aika lähdä."

With love will I be happy
With passion will I be conscious
Will I hold the fire?
I'm slave of my own desire.
