In a darkness of the night A vampire cast her spell A
full moon's hazy light The world returns to hell
In a gothic world of evil The undead walks the land The
shadow of the devil The vampire takes your hand
Carmilla, Marcilla, Mircalla,... it's love at the first bite it's
lust of a vampire A beautiful young Karnstein... Mircalla
In a night of the dead You can't escape The shadow of
the vampire's head And you'll be undead
In a gothic world of evil The undead walks the land The
shadow of the devil The vampire takes your hand
Carmilla, Marcilla, Mircalla,... it's love at the first bite it's
lust of a vampire A beautiful young Karnstein... Mircalla
